

Certificate of Conformity

This is to certify that all raw materials used in packaging made by Colpac, and which may potentially come into contact with food products during normal use, are designated FOR FOOD USE.

They conform to relevant FDA regulations (where specified), EN71 and other recognised and applicable standards including, but not limited to, (EC) regulation No 1935/2004, which includes directives 10/2011/EC, 2007/19/EC and (EC) 2023/2006 for good food manufacturing practice.

All paperboard used by Colpac for packaging is certified suitable for direct food contact on the uncoated and normally unprinted surface of the material and is sourced in accordance with EU Regulation No 995/2010.

Colpac is **ISO9001** and **BRC/IOP** accredited. All manufacturing procedures conform to the requirements of these standards.
