

COALA WALLDESIGN NW FIBRE

Product Information

Coala WallDesign NW is a range of white vinyl wallcovering with a non-woven/textile backing in a choice of different embossings and textures. It is very easy to apply, with just applying the glue on the wall and is very easy to remove, even dry.

After printing with (eco)solvent UV or Latex ink, Coala WallDesign NW is suitable for a whole range of applications, from a personalized mural for consumers or a tailor made and decorative wallcovering for hotels, offices or (healthcare) institutions, to a durable shop interior or creative set design

Coala WallDesign NW is a wall-covering solution with a non-woven/textile base for inkjet printing. This paper is ideal for situations where a stronger base material is required for easier removal.

Fibre textured surface finish

Solvent, Eco-solvent, Latex and UV-cure ink compatible

Classified as non-hazardous to DIN52900 or 91/155/EEG, 2001/58/EC

Rot and mildew resistant

Fire resistant: conforms with B1, M1, Euro class B s1d0

Lightfastness > 7 International Woolscale

Can be washed with soap (tested on unprinted material, may vary on print/ink technology used). Do not use solvents.

Technical data

Product Description	
Support	Non Woven Fleece
Weight	350 g/m ²
Finish	Fibre matt

Shelf Life

Store in closed original packaging in a cool, dry environment 10-25°C with 50% relative humidity
Shelf life of one year if stored in original packaging in recommended conditions

Mounting

Heavy duty PVA based adhesives are recommended

Standard Dimensions

1372 mm x 30 m
